The Times—a Repunde election of a certain bemocration of the nomination and election of a certain bemocratic Editor for Congress, from this district, and made also the Editor for Congress, from this place was \$20,000 recent to the Tammany wing of the Democracy. The district of Tammany wing of the Democracy The district of the Lagrangian of the Congress of the Lagrangian y, without respect to party. The outrage, of a complains, if committed—as you will infer wait to the property of the considerations—though field or excused by the people. The "political con" of this town, which has a clear an majority, is not such as to encount tolerate here the delugs of the Klan. And candor requires that I make this the behalf of the Democrats as well as of the ans. Would that the same could be said of every ur country. our country, port, L. L. Aug. 28, 1868.

Mr. Harrison was tarred and feathered by a masked gang of rutius, who called themselves members of the Ku-Klux Klan. This is not denied. We know no Republican members of the K. K. K.-[ED. FILCHING ARMS FROM NEGROES-WARNING TO A NEGRO CLERGYMAN.

The Memphis Post has the following account of recent entrages by the "Ku-Klux Klan" in that

eighborhood!

"The existence of a gang of the vile Ku-Klux assassins and robbers near Hadelgh, in this county, cannot be doubted. They have been committing depredations in that quarter fer over two weeks. Some lives have been taken by them, but they seem to be more intent upon robbing the helpiess colored people. They arm themselves with shot-guns, mount, and in gangs of 50 or 60 sally out at the dead of night to rob poor negroes of their arms. Last week they came across a brave fellow, who gave them what they so richly deserve. Instead of giving up his gun, as demanded, he compromised by giving one of them the contents of it full in the face. A call for a meeting of the colored ministers of this city, with the names of the various colored clergymen attached, has appeared for a time in The Pool. One of the gentlemen whose name appears in the list had occasion since its publication to visit Colliersville to hold religious service near that place. He had no sooner reached the place than it was noised about that a 'nigger minister' from Memphis had arrived. Some Rebels had been reading The Post, and noticed this list of colored clergymen. They at once called upon him and demanded his name. Finding his name in The Post, they cursed him, and warned him to leave that place as fast as he could get away. We are not aware that this clergyman ever attended a political meeting to took any part in politics. The object of the meeting, to the call for which his name.

A NEW PATENT COFFIN-THE INVENTOR "BURIED

ALIVE." About 600 people assembled on Tuesday at Baier's Woods, Newark, N. J., to witness the burial exhihition er test of a patent coffin invented by F. Vester. At the hear named the inventor made his appearance and haid himself in the coffin, the lid of which was fastened ordinary description, with the exception of a wire screen immediately at its head. The coffin was then screen immediately at its head. The cofin was then ornascented with a cross and a quantity of leaves and white flowers, and the whole—man, coffin, cross, and flowers—bewered by straps into the grave. A large box, rather larger than the customary ones, with a hole two feet square at the head, directly over the coffin screen, was then lowered into the grave. Another box, about two feet in width and seven feet high, was placed in an upright position, one can fitting exactly into the square hole in the coffin bex. The earth was tittown upon the box, around the upright, and all

THE WOLFFIA.

This interesting and remarkable vegetable, known to naturalists under a name equally classic and impropounceable, as the smallest flowering plant in exto produce that great desideratum of the Nineteenth Cen- firm but dull, closing steady at quotations. Governtury, a sensation-among the botanists. Hitherto the most anxious scrutiny failed to detect the flowers or fruit most anxious scrutiny failed to detect the nowers or iron ef the Wolffia. The most powerful microscopes were employed in vain, the flowers remaining as invisible under the glass as ever was Jack, the Giant-Killer, when he had doned his coat of darkness. The intelligence, therefore, that a Wolffia, tired of blushing unseen, has put forth flowers that can be discerned, will naturally create astonishment in the learned world, and mayhap, too, increducity. The physician who is the enviable proprietor of this ambitious plant was kind enough hast proprietor of this kind our reporter an opportunity of inspecting the treasure which floated on some water in a glass case, presenting to the uninitiated gaze the appearance of green seum. The seum was an agglomeration of wolfins, all in flower, and each one perfect, possessing stamen, pixil, and the other efecters. It may be stated, focidentally, that Wolfins may be found floating upon the water of poole in company with the "duckmeat."

THE COURTS.

CIVIL.

In the Superior Court Special Term, yesterday, George Royce and Henry Wilmot, the alleged perpetrators of the robbery of \$21,000 from Mr. Thomas F. Morris of Wall-st, were brought up on a writ of habeas corpus, for the purpose of procuring their discharge or admission to bail. A writaff certurari had been issued to Justice Shandley to certify the proceedings to the Court, but no return to it was made. Counsel for the prisoners being unwilling to proceed by attachment against the magistrate, the matter was adjourned to to day to enable him to procure the return... In the same Court a curious question was presented, as to the effect of a referee's death on his report. The case of Woodruff ggainst Hickey had been before Judge Bonney, as referee, for some years. The case having been closed in an interview between him and the plaintiff's attorney, he promised that widdin a few days he would send him the report to the wildin a few days he would send him the report for the philatiff for over\$20,000, July engressed and signed, with a bill for his fees for \$1,025. The plaintiff took up this report paying Judge Bonney's partner the fees, and now offers it to the Court as the report in the case. The defendant chims that there was no delivery of this report, and that delivery was essential to its validity, as till such delivery the referee was at liberty to change his decision. The plaintiff claims that the circumstances amount to a legal if not actual delivery and that no delivery was necessary the report being complete. Decision reserved. A Miss Dunham, an actress, has brought suit in the same Court to recover her wardrobe from Rr. Billings. The plaintiff in Boston being unable to pay her board bill of about \$20, left her trunks with him as security. He was arrested, and now on affidavit that she is an adventures, that she has bever effected to pay him, that he is willing to return her trunks, and that they are not worth much he asks to be released from arrest, or to have his bail reduced from her spokes on which he is n

CRIMINAL. At the Essex Market Police Court, yester-At the Essex Market Police Court, yester-day, before Justice Shandley, Anna McDowell of No. 47 Norfolk-st., complained of Bridget Mailany for stealing a shawl. She confessed that she had pawned the property. Committed., Patrick McKeon of No. 69 Sheriff-st. charged Francis Carlin with stealing a check on the Mechanics' and Traders' Bank for \$25, as he was passing into the bank building. Carlin acknowledged that he had drawn the money on the check. Committed... Jacob Bosche and Samuel Rauch were committed for stealing 13 pieces of tape from the Evening Star Shirt Company... The examination into the Broadway Theater shooting affray was adjourned to to-morrow at 10 o'clock.

At the Lefferson Market Police Court vestor-

At the Jefferson Market Police Court, yester-At the Jefferson Market Police Court, vester-day, before Justice Dodge, Otto Herman and Augusta Herman, keepers of a disorderly house in Greene-81, to-gether with Emma Ernst, Mary Myers, Lizzie Brown, and Kate Howard, inmates of the house, were committed for trial... James Sawse, a boy, was committed for an alleged attempt to cut the glass in the show-case of Edward Dickey, on No. 735 Broadway, for the purpose of stealing the contents...Charles Detimar was committed on a charge of stealing a watch from Eliza Hesse, of No. 208 West Twenty-sixth-st...Elliott Johnson, a boy, was com-mitted upon complaint of Mary Wolford of No. 60 West Thirty-third-st., who charges him with stealing a breast-pio, valued at \$15.

In the United States Commissioner's Office Yesterday, before Commissioner Osborne, the hearing in the case of the United States agt. Jose Ferrer de Couto, the case of the United States agt. Jose Ferrer de Couto, editor and proprietor of the Spanish paper, La Cronista, for an alleged assault upon ignacio Gomez, Minister Pienipotentiary for the Republic of Nicaragna and Honduras to this country, was commenced. District Attorney Courtney quoted from the statutes to show that the case came within the law, and that, upon conviction, the defendant would be liable to imprisonment not exceeding three years, and to such a fine as the court, in its discretion, might impose. The testimony of the Minister was then taken, which was in substance the same as already published in the columns of The Trainurs, to the effect that on the 11th inst. while he (witness) was drinking codes at Delmonico's (Fifth-ave, and Fourteentk-st.) with a friend, defendant obtruded himself upon them and

after using ungentlemanty language, put himself in position to and threatened to slap his (the witnesses's) face; and subsequently sent the witness a verbal challenge to fight a duel. Counsel for defendant then made a statement to the effect that the Minister had been guilty of a centempt of our Government in carrying en a newspaper controversy within this country respecting the objects of his mission; that he had assailed the domestic relations of defendant; had endeavored, in a surreptitions manner, to obtain from our Government permission for two Monitors to leave this country to be sold to the Feruvians while they were at war with Spain, on the pretext that there was then a truce between those belligerents; and further, that he had incited the defendant to send the challenge by having said to the defendant at Delmonico's, "This is not the way for gentlemen to settle. You know your remedy." Which language caused the defendant to believe that the Minister expected to be challenged, and would not take advantage of his official position to prosecute his challenger. Counsel contended that the Minister, by his alleged above mentioned acts, had put himself without the pale of the protection of this Government as a foreign Minister, and was about to submit certain documents in support of his allegations, when an adjournment was had until to-morrow.

THE MONEY MARKET.

WEDNESDAY, Sept. 2-P. M. Gold opened stronger selling at 1451, but declined 144 at the close. This is a temporary rally made on the shorts, but the tendency of gold from this point is downward, with occasional rallies caused by the market being over sold on some cock and bull reports. market being over sold on some cock and bull reports of the disturbed condition of the South. The election in Vermont yesterday, and the no less significant speech of Senator Fessenden at Portland the day previous, has cleared the political air wonderfully and the election of Grant, now as sure as any future event can be, will tranquilize the country. All persons who have been disturbed as to the intentions of the Government as to the payment of the debt can have their doubts set at rest by reading Mr. Fessenden's remarks in which he announces that it was intended to be paid principal and interest in gold. Governments responded to the election news, and the publishing of the ex-Secretary of the Treasury's speech, and all classes were in sharp demand. Part of this was speculative, but it is notewor thy that within the past ten days a renewal of investment demand has set in, and that for the past week the amounts taken out of the street have been very heavy. Bonds of all classes are in active borrowing demand and loaned flat. Considerable disposition was shown to cover this morning by parties who are heavily short; but at the advance but few bonds were effered, and no purchases of round lots could be made at anything like current rates. The investment demand to-day has been heavier than for three months, and large amounts have been bought by banks and savings institutions. The dealings to-day were fully \$5,000,000, and well distributed on the list. Heavy sales were made early in the day to break the market for political effect, but without producing any result except to further increase the present enormous short interest. The Boston and Philadelphia markets are bare of bonds, and the dealers in the latter city are fully two millions short. The amount of bonds already engaged for Frankfort for Saturday's steamer is over one million, all of them of the new basies, and of the amount \$500,000 are in 67's, which are now the chespest bond on the market and the Tavorite with the German bankers. The large amount of bonds new being taken from the street will have a marked effect upon the dealings in the street, and with the feeling that now obtains that the public faith will be kept with the public creditors, and that the election of Grant will leave the settlement of the financial question in the same hands that made the dekt, will advance our securities both at home and abroad. State bonds were dall. Now Tennessees sold at 63; Virginias, (new.) 521: North-Carolinas, ex-coupen, 72: new bonds, 711; Missouris, 924. Railway bonds were firm and in demand. Bank stocks were strong. Delaware and Hudson sold at 1301. Pacific Mail was stronger, selling at 102. Express shares were neglected. Railway shares opened steady. Eric sold at 45]@47l; closing, 47 bid. Hudson sold at 140. Reading was in demand, advancing to 1021. The Western shares were all strong, with a fair business. Cleveland and Pittsburgh sold at 87). North-Western shares were largely dealt in, advancing to 85. Cleveland and Toledo was active. St. Paul Common sold at 781; the Preferred, St. Fort-Wayne, 109. Hannibal and St. Joseph Preferred, 89. New-York Central sold at 1261, closing at 1261. At the close the market was

Money continues abundant at 324 per cent, and banks and bankers have great difficulty in placing their funds. The amount of loanable capital continues largely in excess of the needs of borrowers on call. Commercial paper is wanted and first-class names pass at 6@7 per cent. At the close of business large blocks of money were offered at 3 per cent without takers, and the day has been the easiest one for borrowers of money of any this sea-

Sterling Exchange is steady at quotations: London, 60 days, 109@100#: good bankers' do., 1081@109; prime commercial sterling do., 108@108]; Paris bankers), 5.174 @5.182; Antwerp, 5.174 @5.184; Swiss, 5.171@5.181; Amsterdam, 401@41; Hamburg, 351@36; Frankfort, 401 @ 401; Bremen, 791 @ 791; Prussian

thalers, 711@711. It is no secret that the managers of that bankrupt concern, the Atlantic and Great Western, road are on their way here from London and will endeavor to saddle the concern upon the Eric Railway Company by purchase if possible, but most probably by leasing them the road. The affairs of the Great Western are in a deplorable condition and its earnings show a continued heavy decline, and it has no look for any improvement. The bondholders are endeavoring to fund the overdue interest and get the property into their possession again, and will reorganize the Company, and make the Hon. H. G. Stebbins, of this city, President, and an endeavor will be made to galvanize the thing into speculative activity. The property is not worth to the Erie Company 50 cents on the dollar of its present bonded debt and stock, and any trade made for the property at anything above that rate would be a losing one for the road to add to its

BANKING AND FINANCIAL. CLEVELAND AND PITTSBURGH RAILROAD COMPANY CONSOLIDATED, SINKING FUND,

MORTGAGE BONDS.

PAYABLE NOVEMBER 1, 1900.

Interest at the rate of seven per cent, payable at the office of the Farmers' Loan and Trust Company on the 1st of May and 1st of November.

The undersigned now offers \$200,000 of the above described bonds, carrying interest from the 1st of R. G. ROLSTON, Pres., No. 26 Exchange-place.

PACIFIC RAILROAD (OF MISSOURI) SIX PER CENT GOLD BONDS. Over three millions dollars of the above loan having been sold in this market since the 1st inst., beside several large lots for shipment to Europe, the price has this day been advanced to par and accrued inter-

est in currency. The aggregate amount of exports, exclusive of | The proceeds of this loan are to be applied to pay-

ment of maturing obligations, and not for extension of the road or new improvements. The bonds will be a first mortgage on 283 miles of road, running from St. Louis to Kansas City, and have 20 years to runprincipal and interest payable in gold. Coupons mature February and August. Net earnings now double the amount required to meet interest account.

For further particulars, apply to CLARK, DODGE & Co.,

Hon. A. K. McClurg, Philadelphia, Solicitor. The Chinese Government having (through the Hon. Anson Burlingame) conceded to this Company the privilege of connecting the great seaports of the Empire by submarine electric telegraph cable, we propose commencing operations in China, and laying down a line of 900 miles at once, between the following ports, viz. :

These ports have a foreign commerce of \$900,000,000,

and an enormous domestic trade, beside which we have the immense internal commerce of the Empire, radiating from these points, through its canals and The cable being lasd, this Company propose erect-

ing land-lines, and establishing a speedy and trustworthy means of communication, which must command there, as everywhere else, the communications of the Government, of business, and of social life, especially in China. She has no postal system, and her only means now of communicating information is by courier on land, and by steamers on water. The Western World knows that China is a very

large country, in the main densely peopled; but few yet realize that she contains more than a third of the human race. The latest returns made to her central authorities for taxing purposes by the local magistrates make her population Four Hundred and Fourteen Millions, and this is more likely to be under than over the actual aggregate. Nearly all of these who are over ten years old not only can but do read and write. Her civilization is peculiar, but her literature is as extensive as that of Europe. China is a land of seachers and traders; and the latter are exceedingly quick to avail themselves of every proffered facility for procuring early information. It is observed in California that the Chinese make great use of the telegraph, though it there transmits messages in English alone. To-day, great numbers of fleet steemers are owned by Chinese merchants and used by them exclusively for the transmission of early intelligence. If the telegraph we propose, connecting all their great scaports, were now in existence, it is believed that its business would pay its cost within the first two years of its successful operation. and would steadily increase thereafter.

No enterprise commends itself as in a greater degree remunerative to capitalists, and to our whole people. It is of a vast national importance commercially, politically, and evangelically.

Shares of this Company, to a limited number, may be obtained at \$50 each, \$10 payable down, \$15 on to 1st of November, and \$25 payable in monthly installments of \$2 50 each, commencing December 1, 1868, on application to
